Reciprocity Probable.

Mr. Taft has ben very eager to bring about the repeal of the measure: but the Democratic party, who are in control of the House of Representatives, are not going to help Mr. Taft to get rid of his embarrassment. Earlier in the session they declined to consent to the repeal of the reciprocity measure, and now by a vote of 127 to 107 the House of Representatives has voted in favor of retaining the reciprocity offer n the statute books.

This action of the Democratic party, hich is likely to be in control of both ouses of Congress after the November elections, is of the highest importance. If the reciprocity offer is retained on the statute books until after the next general election in Canada.
